

Attention Patients:

Please be advised that your lab work may be sent to an outside facility for processing, therefore:

- You will be billed separately by the outside lab and a co-payment, co-insurance or deductible may apply.
- Most routine tests are performed on site, special tests are most often sent to **LabCorp**.

Other outside labs we utilize include:

- **Quest**
- **Geneoptix**
- **Cleveland Clinic**
- **DrugScan**
- **CBL Pathology**
- **Emerge**
- **Millennium**
- **Mayo Clinic**
- **Boston Children's Hospital**

Our physicians use several outside labs for special tests (i.e. drug screen, biopsy, etc.). Please be sure to review your insurance plan's list of participating labs to ensure these labs are in-network. For assistance, please speak to a representative in our Business Office by calling 315-798-1767 or 315-798-1775.
