Explore key characteristics of Medicaid and CHIP in New York, including documents and information relevant to how the programs have been implemented by New York within federal guidelines.

New York has expanded coverage to low-income adults.

As of September 2023, New York has enrolled 7,399,384 individuals in Medicaid and CHIP — a net increase of 30.31% since the first Marketplace Open Enrollment Period and related Medicaid program changes in October 2013. New York has not adopted one or more of the targeted enrollment strategies outlined in guidance CMS issued on May 17, 2013, designed to facilitate enrollment in Medicaid and CHIP.

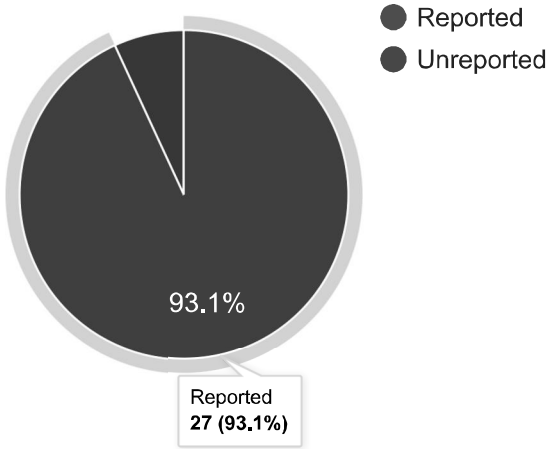

In federal fiscal year (FFY) 2022, New York voluntarily reported 20 of 24 frequently reported health care quality measures in the CMS Medicaid/CHIP Child Core Set. These counts do not include the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Health Plan Survey 5.0H – Child Version Including Medicaid and Children with Chronic Conditions Supplemental Items (CPC-CH) or the Central Line-associated Bloodstream Infection (CLABSI-CH) measures. New York voluntarily reported 27 of 29 frequently reported health care quality measures in the CMS Medicaid Adult Core Set. These counts do not include the Consumer Assessment of Healthcare Providers and Systems (CAHPS®) Health Plan Survey 5.0H, Adult Version (Medicaid) (CPA-AD) measure.
